NUMBER 175.

CAILLES MUST YIELD.

Two of His Officers Sign His Name to an Agreement to Surrender.

HAS A FORCE OF OVER FIVE HUNDRED

Last of the Filipino Leaders to Assemble His Followers and Give Up the Fight—Judges Assigned Timber in the Philippines.

Manilla, June 17.—Colonels Infant and Guyvara, representatives of General Callas, signed the name of their principal to an agreement to surrender. Under the terms of this agreement General Callas is to assemble his men at Santa Cruz, Laguna province, as quickly as possible, and there surrender himself and his command to the American authorities. The exact number of his force is uncertain, but there will probably be more than 500 of them.

The 17 judges have been assigned to the courts of first instance. Among these appointments there are 11 Americans, who have been given the most important circuits, as follows: Manilla, Kinkaid of Texas and Odlin of New Hampshire; Aperri, Blount of Georgia; Dagupan, Johnson of Michigan; Batangas, Linebarger of Illinois; Nueva Caceres, Carson of Virginia; Ilollo, Bates of Vermont; Negros, Norris of Nebraska; Cebu, Carlock of Illinois; Zamboanga, Ickis of Iowa; Jolo, Whitsett of Missouri.

The chief of the forestry bureau of the Philippines, Captain Ahearn, has issued a circular which is applicable to those who are considering business ventures other than lumbering in the archipelago. The United States attorney general, it should be borne in mind, has construed that the inhibition in the amendments to the Spooner act does apply to timber cutting on government lands. In brief, the circular shows that at present there are no laws under which timber lands can be purchased. There is some timber land held by private parties, but it is very limited in extent and as a rule is not on the market. The custom for lumbermen in these islands is to apply for a license, granted free of charge, for a term of one year, and can be renewed. As a rule applicants can obtain as large a tract as they can conveniently exploit. There are many large forest districts where no licenses have been applied for and which could be profitably handled if labor could be obtained. There are more than 50 species of valuable gum trees, from which are extracted rubber, gutta percha and other gums. Next to labor, transportation is difficult to secure, as the supply of steamers and launches is not equal to the demand. Inter-island freight rates are very high, and at times cost more than the price of the timber at tide-water. It would be wise to look over the ground very carefully before investing in the timber of these islands. There is a vast market here in the orient which will readily take every log brought to tide-water. Much valuable timber is here and a high price is paid for the same in this market. The great and almost insuperable obstacle is the lack of labor. And when labor is secured, much tact is required to retain it any length of time. Much of the valuable timber is inaccessible at present, due to the lack of roads; in time roads will be constructed and river driveways improved. The great majority of the native timber will not float; bamboo rafts are often used. The bamboo finds a ready sale in all the markets. There are 665 native tree species known, including 11 species of oak, true ebony, some teak, camagon, an abundance of narra (Philippine mahogany), tindalo, calantes (Philippine cedar) and other woods suitable for veneering and finest cabinet work. In view of early peace and a resumption of building in the provinces, the demand for timber and transportation will increase very materially this year and next.

Captain Ahearn will exhibit samples of Philippine woods before the furniture associations at Grand Rapids and elsewhere. The very great variety of rare and beautiful woods will doubtless surprise them and may create an American demand for Philippine timber.

Judges of supreme court of Philippines appointed by Philippine commission: Chief Justice, Cayetano Arellano; Florentino Torres, ex-attorney general; J. F. Cooper, of Texas; General James F. Smith, of California, formerly collector of customs; Charles A. Willard, of Minnesota; Victoria Mapa, of Illoilo; Fletcher Ladle, of New Hampshire. The commission also appointed L. R. Wilfley, of Missouri, to be attorney general. His assistants and solicitor will be natives of the Philippines.

Mexico's New Postoffice.
City of Mexico, June 17.—The federal government completed plans for

a new postoffice edifice in this city, which will be built near the School of Mines and in what is now the center of the city. The building will be wholly of steel framework and fireproof. A Chicago firm of architects received part of the contract.

WAS A LOVE AFFAIR.

In Melnhoffer's Pockets Was Found Explanation of the Tragedy.

New York, June 17.—William Melnhoffer, the young man who shot Mary Bolte, died at Fordham hospital, where a few hours earlier Miss Bolte also died. The immediate cause of the tragedy may never be known, though the motive is believed to have been jealousy. In Melnhoffer's clothing was found the following letter: "I sit here and calmly smoke my pipe. After great deliberation I propose to kill her. She deceived me. I kill her for revenge. She wrecked my life. I have nothing more to live for."

Melnhoffer, who was 23, was the son of a retired baker. He was in love with Miss Bolte but the two had a quarrel recently. She formerly lived in Los Angeles, Cal., and is said to have lately come into a small fortune.

Bribery Charged.

Grand Rapids, Mich., June 17.—It developed that the grand jury that has been investigating the alleged water works scandal for the past two weeks handed down a sixth indictment, which was suppressed on the order of the judge until service can be secured. The indictment charges, that the five persons who were indicted Friday, City Attorney Lant K. Salisbury, Thomas V. McGarry, Stillson V. Macleod and Garrett Albers, of Grand Rapids and Henry T. Taylor, Jr., of New York, "with other persons unknown on July 26, 1900, unlawfully and wickedly conspired to procure by unlawful and criminal means a contract for some person, firm or corporation to be designated by them to furnish the city of Grand Rapids with Lake Michigan water, such unlawful means being bribery of certain city officials, towit—the mayor, and common council and board of public works or some of them."

Rollcall Stolen.

Denver, June 17.—The rollcall in the senate on the third reading and final passage of senate bill No. 87, better known as the employers' liability bill, has been stolen from the legislative records in the vault of the secretary of state's office. The stealing of the rollcall was expected to invalidate the bill. The claim is made that the corporations of the state paid \$3,000 to abstract the rollcall from the records. The Colorado Federation of Labor intends to sift the matter to the bottom and punish all concerned to the fullest extent of the law.

Woman Suffrage.

Montgomery, Ala., June 17.—An ordinance proposing the regulation of woman suffrage was introduced in the constitutional convention by Mr. Craig of Dallas. The resolution provides that all women who are permitted to vote must be over 20 years of age, must be able to read and write, her husband must pay \$5 in taxes or must have earned \$300 the year preceding. If single the woman must pay \$5 in taxes or have earned \$300 the year preceding. Divorced women, except those granted a decree on the ground of adultery, cannot vote.

To Appeal to Supreme Court.

Philadelphia, June 17.—It was authoritatively stated that John J. Johnson, counsel for the Union Traction company, will appeal to the supreme court for a decision in the legality of the Rapid Transit ordinances recently signed by Mayor Ashbridge, granting franchises to numerous street railway companies. Mr. Johnson, it is said, will carry the matter to the highest law tribunal under the bill of rights. The Union Traction company controls all the streets not covered by the new franchises.

Boy Kidnapped.

Dallas, Tex., June 17.—E. D. Strong, a prominent man from Texarkana, has given his 7-year-old son up as a victim to kidnappers. The boy was put on a railroad train at Waco June 1 to be sent home, a distance of 250 miles. Parents and friends have not heard from him since. The state has been quietly searched, but no trace of him has been discovered. The father of the boy is in Dallas consulting the police and detectives.

Want to Enjoin the Books.

Chicago, June 17.—Application was made to Judge Murry F. Tuley for a restraining order preventing bookmaking and poolseiling, first at the Harlem track and later at the Washington Park track. The request to take action in the matter came to State Attorney Dineen from Colonel Fred Rowe, thought to represent Governor Yates and the Citizens' association, Hoyt King, secretary.

SNEAKED UP ON THEM.

Boers Surprise a British Camp and Put It Hors de Combat.

ONLY A FEW BRITISH GOT AWAY.

Two Officers and Sixteen Men Fell Dead, Four Officers and Thirty-Eight Wounded by a Rakling Fire—Foreign Dispatches.

London, June 17.—A speech from Willrust says 250 mounted rifles from General Beaston's column were surprised in camp at Steekoolspruit by a superior force of Boers June 12.

The Boers crept up to within short range and poured a deadly fire into the camp, killing two officers and 16 men, and wounding four officers and 38 men, of whom 28 were slightly wounded. Only two officers and 30 men escaped to General Beaston's camp. The remainder were taken prisoners and released.

Two pomps were captured by the Boers. Full details have not yet been received.

Won by Cheri.

Paris, June 17.—The grand prix de Paris was won by Cheri in 3:09, with Thero second and Lady Killer third. All passed on the home stretch Olympian, who maintained the lead for half the distance. Although Olympian failed to secure the grand prize, Americans here gather much satisfaction from the fact that for the first time in the history of this race the winning horse was ridden by an American jockey. His name is Rigby.

Father Planchet's Book.

City of Mexico, June 17.—Father Planchet, a French priest here, has written a book on canon life and the Mexican clergy in which he denounced as superstition and unwarranted many practices common among the ignorant class of believers. Archbishop Alarcon has prohibited the faithful from reading the book, but the priest persists in exposing what he calls the variations from the standard rites of the church.

Knights of St. John.

Cincinnati, June 17.—Reports to the local committees show that every section of the country will be represented here at the twenty-third International convention of the Knights of St. John, June 24 to 27. Large delegations will attend from Canada and the west, California, Colorado and New Mexico will send commanders to enter the competitive drill for the world's championship. Over \$25,000 has been subscribed to the entertainment fund. An attendance of over 30,000 knights and their families is indicated from the letters received. The first day of the convention there will be a street pageant of over 20,000 uniformed knights.

Reformed Presbyterians.

Cincinnati, June 17.—The delegates to the general synod of the Reformed Presbyterians occupied many of the pulpits in this city and vicinity. The sixth annual convention of the Young People's union of the Reformed Presbyterian church closed with a union mass meeting, at which addresses were made by Dr. J. D. Steele of New York, Rev. J. L. Patton of Columbus, O., R. H. Munro of Pittsburgh, Miss Dickson of Tarentum, Pa., Rev. W. C. McChesney of Cedarville, O., and Dr. David McKinney of Cincinnati. The proceedings of the general synod will conclude Tuesday night.

Fought In Two Wars.

Memphis, June 17.—General William Montgomery Gardner, 73, a veteran of the Mexican and civil wars, died here. General Gardner graduated from the military academy at West Point in the class of 1846. His leg was shattered by a ball at the first battle of Manassas, where he was colonel of Eighth Georgia regiment.

Proven an Accident.

Parkersburg, W. Va., June 17.—Della Archer, 18, was arrested, given a hearing and released, having shot and killed Daniel Spencer, her sister's fiance, while he was arranging for the wedding. His relatives allege that jealousy prompted her to shoot him, while the evidence at the hearing showed that it was accidental.

Mrs. Kennedy Will Appeal.

Kansas City, June 17.—Mrs. Lulu Prince Kennedy continued her fight for vindication by an appeal from the verdict finding her guilty of murder in the second degree and fixing her penalty at 10 years' imprisonment for killing her husband Feb. 10 because he would not live with her after a compulsory marriage.

New York, June 17.—The chocolate factory of Runkel Brothers was destroyed by fire. One of the firm estimates the loss at \$250,000, which is largely covered by insurance. The factory employed 150 hands.

ON THE TRAIL.
Posse Still Pursuing Prince Edwards
All Quiet at Benton.

Shreveport, La., June 17.—The search for Prince Edwards the murderer of John Gray Foster, continues. There seems to be no doubt that the negro being pursued in northeast Texas is the man wanted, but his course is so sinuous that it is extremely difficult to follow his trail. A telephone message from Marshall, Tex., says the searchers are working night and day. Great difficulty is experienced in extracting information from the negroes in the country through which Edwards is supposed to have passed. All is quiet at Benton. The sheriff says he apprehends no trouble, but is fully prepared to meet it should it come. He has a large armed force in readiness and can put it in service at a moment's notice. The temper of the public has cooled considerably.

POINTER FOR PETERS.

Summoned to Washington and May Succeed H. Clay Evans.

Topeka, June 17.—Ex-Congressman S. R. Peters of Kansas received a dispatch calling him to Washington, where, it is believed, he will be tendered the office of pension commissioner to succeed H. Clay Evans. President McKinley is said to have had under consideration the names of ex-Congressmen Blue and Peters for this position, and the summons of Mr. Peters to the White House apparently settles the appointment in his favor.

Argentina's Debts.

Buenos Ayres, Argentina, June 17.—The newspapers of Buenos Ayres continue to condemn the bill for unfreezing of the public debt. La Prensa says that during the 20 years of President Roca's influence over the destiny of the country, the debt has increased from \$6,000,000 pesos to \$35,000,000 pesos gold, while the population has increased only 80 per cent during the same period.

"The president's message," declares the newspaper, "says the debts can be unified to the amount of \$92,771,000 pesos. Why then borrow \$45,000,000? This shows a lack of sincerity. Besides this is the first time that the Argentine government accepts humiliating impositions from foreign capitalists."

Sinking of Transport Ingalls.

New York, June 17.—Pending investigation by the federal authorities, John N. Robbins, of the John N. Robbins company, refuses to make a statement concerning the sinking of the United States transport Ingalls in the Erie basin. So far as known the accident caused the life of one man and the injury of more than 30 others. The greater number of those injured are in Seney hospital, Brooklyn, where it was said that several were in a serious condition. Those in charge at the dock do not think there are any dead in the basin, although the fear was expressed in some quarters that workmen might have gone to the bottom when the transport turned over.

Johnson's Plan Turned Down.

Cleveland, June 17.—The city council board of revision formally notified Mayor Johnson that it had decided not to adopt his system of equalization of tax valuations. The mayor was also informed that the board would not attend any more of his tax meetings and that it would proceed to adjust valuations on the system heretofore in vogue. The mayor endeavored to have the board adopt a new and unique basis for fixing valuations.

Sunday Fishing.

Harrisburg, Pa., June 17.—W. E. Meehan, secretary of state fish commission, says that the new fish law recently signed by Governor Stone does not prohibit fishing on Sunday. He said the new laws are very much more liberal than the old ones. Among things one will notice that there has been no prohibition against Sunday fishing. This feature of the law will undoubtedly be welcomed by those who cannot find time to fish on week days.

Fatal Thunderbolts.

Allegan, Mich., June 17.—During the progress of a terrible electrical storm the barn of Sullivan Case, near Scott Lake, was struck by lightning and burned. The charred remains of Case were found in the ruins. John Yerger and his son, James, of Mill Grove, were killed by lightning, having sought refuge from the storm in a barn. Much damage to crops was done.

Ohio Man Found Dead.

Milwaukee, June 17.—Noah Trissel, a representative of the August Gast Bank Note and Lithograph company of St. Louis, was found dead at a hotel here. The body was taken to the morgue where an autopsy will be held to determine the cause of death. Trissel's father is said to live at Liberty, Ohio, and a wife and five children reside somewhere in Ohio. Trissel had been in the city about 10 days.

THIRD TRIAL FAILED.

Jurors Could Not Agree on a Verdict in Dr. Kennedy's Case.

FIVE FUTILE BALLOTS WERE TAKEN.

Eight Voted For Acquittal but the Others Hung Out For Conviction. Kennedy's Counsel Will Insist on Quashing Indictment.

New York, June 17.—The jury which listened to the evidence against Dr. Samuel J. Kennedy, accused of the murder of Dolly Reynolds, reported to Judge Newburger that it could not agree on a verdict. The judge at once discharged the jury. It is said the final ballot stood four for conviction and eight for acquittal. This was Kennedy's third trial for this crime.

Immediately after the adjournment of court attorneys for the defense saw Judge Newburger in regard to their next step in behalf of Dr. Kennedy. The judge said they should see District Attorney Philbin as to whether he would agree upon the course to be pursued, and appear before him Tuesday to make whatever motion they desired.

Mr. Moore will ask District Attorney Philbin to move the quashing of the indictment, and if the latter does not take this step to free Dr. Kennedy Mr. Moore himself will make that motion, arguing that the state has shown twice its inability to convict his client of the crime charged, and that the old idea of two disagreements being equivalent to an acquittal ought to prevail in this case.

Emeline C. Reynolds, better known as Dolly Reynolds, was found dead with her head crushed in a room at the Grand hotel, Aug. 16, 1898, where she had gone with a man answering Dr. Samuel J. Kennedy's description, according to the testimony of witnesses. In the dead woman's corset was found a check for \$13,000, signed "Dudley Gideon" and endorsed by "Samuel J. Kennedy." The police theory regarding this was that it was in payment of alleged winnings at the races. The evidence showed at the first trial in 1899 that the woman's skull had been crushed with a piece of lead pipe, alleged traces of which pipe on Dr. Kennedy's clothing were alleged to have been discovered by the police. Dr. Kennedy was convicted and sentenced to be executed at Sing Sing. The court of appeals Nov. 20, 1900, handed down a decision granting Dr. Kennedy a new trial, and the second trial in 1899 resulted in a disagreement. The third trial began May 6.

Modern Elijah Alarmed.

Chicago, June 17.—John Alexander Dowie announced at his meeting in Zion tabernacle that certain physicians of this city had formed a plot to kidnap him, lock him in a detention hospital and beat him on the head and back till he should lose all his reasoning powers and become really insane. He said that the kidnapping might take place after his service and he called a special private meeting of the male members of Zion to take steps to help the Zion guard in protecting him. He also made threats against the physicians, saying what he would do to them, as he thought they were trying to do him; unless they let him alone and stop calling him a paranoiac. With all this Dowie repeated continually his pretensions to be Elijah reincarnated, making way for the end of the world, and he incidentally laid claim to immortality until such time as his work was accomplished.

Second Body Recovered.

New York, June 17.—A second body has been taken from the sunken Staten Island ferryboat Northfield. It proved to be that of Juan A. Benitez, a clerk in the steamship office of French, Edye & Company of this city. He was a young Porto Rican who came here to learn the shipping business. The raising of the Northfield will probably be undertaken at once.

Never Say Die.

Louisville, June 17.—There is the right kind of grit in Charles Ratcliffe, a Louisville and Nashville brakeman, who is now at the University hospital. Ratcliffe was run over by three heavily laden cars May 6. His skull was fractured, both arms and a leg broken and an ear torn off. He has almost entirely recovered, and his dismembered ear is growing on again.

THE KANSAS CITY TIMES suggests as a supplement to the Platt amendment to the Cuban constitution that Congress at its next session enact that when the new government is organized enough Ohio men be sent to the island to hold all the offices.

The present high duty on raw wool is producing the effect which has often been pointed out by free traders, says the Louisville Courier-Journal. The high duties on imported woolens excludes them as elements of competition except by the payment of greatly advanced prices. But there is no way to force people to buy woolen goods if they are unwilling to pay the price. Higher prices, other things being equal, mean reduced consumption. In the case of woolens, the manufacturers are compelled to meet the demand for goods at a moderate price, and they can only do so by a deterioration of the products. Hence the increased use of cotton and shoddy in the manufacture of so-called woolens. In this connection the West Union, O., Defender remarks:

The Adams County farmers who are compelled to sell their wool at 15 and 16 cents per pound under these high protection times, have been doing a great deal of thinking these days. The price of wool is lower now than during the Cleveland administration, and there are fewer sheep in the country.

THE BEE HIVE

A New Couple in Town!

Married, at the Bee Hive, on February 25th, at 11:30 o'clock, MR. BIG BUSINESS to MISS LITTLE PROFIT.

THE MARRIAGE CONTRACT:

We the undersigned, in making our marriage vow, have decided that while we expect to derive much pleasure from our union we have not united for the sole purpose of selfishness, but to do something in this world to uplift some of the burdens that people of these days are laden. And we feel that we can do more good by uniting our efforts than by doing so alone. The people must be clothed, and we are going to do it cheaper than anyone else by doing a big business with little profits.

We do not unite to injure in any way Mr. High Price Merchant, and we will say that the people that have more money than they know what to do with can still buy the same goods that we sell at 30 per cent. more in price at Mr. High Price Merchant Store.

Let everybody unite in making this business big and we will do our share to make your merchandise cheap, and with this done we can say: "Marriage is not a failure."

MRS. M. A. DEINER.

Death Sunday Morning of the Wife of Mr. George Diener After a Lengthening Illness.

Mrs. M. A. Diener, whose serious illness has been frequently mentioned, died Sunday morning at 8 o'clock at the family residence on Market street. She had been a sufferer from heart trouble the last three years and on two or three occasions the last year or two was thought to be at the point of death.

Mrs. Diener was born in Elsaas, Germany, and was forty-four years old. She was a sister of Mr. Tony Pfeiffer of this city. Mrs. Diener is survived by her husband, one daughter, Mary V., and three sons, Anthony F., Geo. L. and Frederick J., all bright, handsome children, who are thus early in life bereft of a mother's love and care.

In slave days "Uncle Billy" belonged to estate of Thomas Jefferson. He was raised at Turton, five miles from Maysville. The father of Mr. G. W. Blatterman bought "Uncle Billy," and Mr. Blatterman having inherited him from his father's estate, brought him to Maysville in 1850. He was offered his freedom by Mr. Blatterman on several occasions, but refused to accept it.

The arguments in the suit to break the will of the late Mrs. A. H. Wall were completed shortly before noon Saturday. The jury, after being out about ten minutes, returned a verdict setting aside the will. The suit was brought by Mrs. Dr. Dimmitt, of Germantown. Under the will she had only a life interest in her portion of the estate. At her death her portion was to be sold and the proceeds divided equally among Mrs. Wall's six grandchildren. Mr. James H. Sallee, one of Mrs. Dimmitt's attorneys, is highly complimented on the able speech he delivered in the case.

Walter Scott Strowger of Rochester, N.Y., inventor of the automatic telephone exchange now in use in several localities, has just invented an electrical storage battery that he says beats anything of the kind ever offered by Edison and the other electrical experts. Mr. Strowger's battery can be charged to an amperage so tremendous in power that it would melt other storage batteries. He also has invented, to go with this battery, a substance to take the place of the India rubber casing, which is superior to rubber for the purpose, and is 90 per cent. cheaper and more desirable. He has discovered a new gas, similar in illuminating power to acetylene, but without its dangerous qualities, which is made out of materials, the residue of which, when made on a large scale, is of more value than the gas itself.

GIVEN TEN YEARS.

Ben Tully, Formerly of Cottageville, gets a Heavy Sentence at Portsmouth for Horse Stealing.

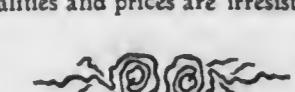

[Portsmouth Times]
Ben Tully, who stole Preston Hackworth's horse, was sentenced to ten years in the penitentiary by Judge Milner this morning.

Tully made a speech, saying he was innocent, had never been arrested and that he had a wife and children dependent upon him.

Judge Milner flatly told Tully he believed he was guilty and that he had imposed on his attorneys, making them believe he was innocent. Milner then sentenced Tully to ten years at hard labor, and the prisoner was led away sniffling.

GREAT SALT LAKE.

No Living Thing in it and No Danger of Being Drowned.

(The Colorado Graphic)

The water of the Great Salt Lake, Utah, is clear and transparent, with a bottom of the white sand and a margin of incrusted salt. It is one of the purest and most concentrated brines in the world. Its waters give sustenance to no living thing; there is not the smallest insect or worm to lighten the most timid bather, and the bathing is the most perfect sea bathing in the whole of North America or in Europe. No human body can sink in it. Your body will persistently rise up, the shoulders above the surface, or you may even sit down in it. Its wonderful buoyancy must be experienced to be realized. No knowl-

edge of swimming is necessary; one may enter the lake without the slightest fear; all you have to do is to lie down and float. But to swim in it, that is another thing. When your hands are put under the water to make a stroke, your feet, like Barquo's ghost, will not go down. It is impossible to keep more than one end of your body under water at a time. Nearly half a million people bathe in the Great Salt Lake every year; they come from all over the world, and tourists are beginning to realize that Salt Lake City and the magnificent surroundings present the greatest scope of novelty, and is destined to be a leading watering place.

Send 2 cents for copy of "Salt Lake City—The City of the Saints," to Geo. W. Heintz, General Passenger Agent, Salt Lake City.

In reply to numerous inquiries as to whether there is any tax due from national banks other than the annual internal revenue tax of \$2 on the

thousand of the capital stock, Commissioner Yerkes says that every National bank that issues circulation notes is, in addition to this special tax, required to pay a tax of one-twelfth of 1 per cent, each month upon the average amount of circulation issued by it, under the third paragraph of section 2048 of the Revised Statutes. The circulation tax is required to be paid to the Treasurer of the United States, but the special tax must be paid to the Collector of Internal Revenue in the district in which the bank is situated.

A lady writes that she has found an effective remedy for the plantains and dandelions which infest so many lawns by cutting the plant off below the ground and dropping a pinch of salt on the root. A few drops of gasoline will also effect the same result.

This plan has been formed by a society recently organized in Rome.
